PRODUCT NAME: Meta Tag Maximizer (121134)

WebGrip Inc (663743)
16420 SE McGillivray #103
Vancouver, WA 98637 United States
TELEPHONE: (360) 833-2907

RECORD TYPE: Directory

CONTACT: Sales Department

REVISION DATE: 030206

WebGrip's Meta Tag Maximizer is an **HTML** tag optimization program.
Employing the program, developers can improve their **Web** **pages** ' search
engine **rankings** . Meta Tag Maximizer analyzes **HTML** pages and provides
users with detailed tag information. Reports can also be e- mailed to
clients. The software allows developers to insert metatags into **multiple**
pages quickly. Users can also import existing metatags into the program.
Meta Tag Maximizer enhances keyword, **Web** **site** description, copyright,
author, robot guideline, and other tags, **formatting** information
appropriately. The solution automatically updates **multiple** **Web** **site**
pages . Meta Tag Maximizer also includes spell checking features. An
evaluation version of program can be downloaded from the WebGrip **Web**
site .

...Web developers to control and show data just as they now control text
and graphics. **Forms** , database queries, and extended link functions can be
implemented with XML. XML is a subset...

...Generalized Markup Language (SGML), an international standard for
definition of special document types for governing **page** presentation over
 multiple platforms. Such **organizations** as American Honda Motor Company,
Boeing, and the U.S. government have used it for many years. However, SGML
is complex and has not had wide acceptance. **HTML** uses a few of SGML's
concepts, such as links, but was developed more for...

...features of SGML. This ability will streamline tasks required to

precisely position page eleme●s in **HTML** , because XML will a●w users to
create their own markup elements, including page formatting. Other...

...linking functions, options that improve browser performance, and more
intuitive ways to reuse information over **multiple** **Web**   **pages** .

PRODUCT NAMES: HTML **Transit 2.0 Windows...**

InfoAccess' **HTML** Transit 2.0, a recommended, refined program that takes
standard text and word processing files and **creates** World Wide
Web-compatible **HTML** **pages** , supports **many** file **formats** , including
Rich Text **Format** (RTF), ASCII, Microsoft Word, Microsoft Write, Corel's
WordPerfect, Lotus AmiPro, Adobe FrameMaker, and Interleaf...

...file types. Enhancements in this release are table and frame features
and support for custom **HTML** code and browser extensions, including Java
applets. The product also puts a table of contents...

...to begin. It allows users to choose a file to be converted and to set
template options, which include navigation buttons, backgrounds,
separators, and headings, to control the appearance of the page. The user
is then sent to the main screen to tweak the **template** and convert the
word processing file. The main screen is well-**organized** and logical, and
built-in filters import style names from source documents. The user can...

...a new page. Graphics and links assignment is easy with the Graphics
button, and custom **HTML** code, tags, and applets can be added around
Translator Elements and at the beginning and...

Anawave Software's HotDog Professional, CompuServe Information Services'
Home   Page Wizard 1.0, Corel's Corel Web.Designer 1.1 and WordPerfect
Internet Publisher, and...

...World Wide Web authoring products useful to accountants because they
automatically add Hypertext Markup Language (**HTML**) tags, which add
formatting to Web documents; users can also highlight words to make them
hypertext links, like the ones in **Windows** Help documents; these can be
clicked to link users to related **Web   sites** . One user began his **home
page** design with **Home   Page** Wizard, which helped him **organize** his
ideas and got him thinking about how to **arrange** text and graphics on a
home   page . To create a professional-looking **page** , he selected
WordPerfect Internet Publisher; creating the **Web   page** was easy, using
cut and pasted sections from an existing file and placing them in a **Web
page   template** . **Home   Page** Publishing Wizard helped with uploading the
files needed to publish the **Web   page** on the Internet. More advanced
packages also provide functions for adding an automatic e-mail...

...can click to use. Users can be prompted to enter tax questions, and a
guest **book** -type response **form** can also be included. Of the products
discussed, only FrontPage 1.1 lacks links to...

PRODUCT NAMES: HTML **Transit 1.0 Windows...**

TITLE: HTML **Transit helps frazzled Web coders hit target**

InfoAccess' **HTML** Transit 1.0, a World Wide Web **authoring** tool, is a
well-designed product that manages **Web   page** source and conversion
tasks. Its learning curve is steep, but this is to be expected...

...designed for professional Webmasters. Frequent updates can be done by
converting source files and user- **designed   templates** . The tool is a good
choice for professional **Web   site   designers** who **create** sites with
many   pages or a business information source with part number lists and
news updates. It is efficient enough for use by those who do lots of
Hypertext Markup Language (**HTML**) coding and who maintain an **organization**
 site with changing pages or content. Users can create source documents for
printer output, and...
